# IPitomy
Communicator Softphone

Take your phone and your features
with you anywhere!

IPitomy Communicator can be your office when you are away from the office.

The IPitomy Soft Phone is built for Business. Features are designed to make all of the users daily activities simple and intuitive. Appropriate for a busy receptionist, call center agent, standard phone user, busy executive or remote worker.

The Soft phone automatically integrates advanced features like viewing the status of all users, Click to Dial, Dialing Contacts, Chat, Call recording and a convenient right click menu to make transferring calls to other users and user voice mail as simple as clicking your mouse.

Whether you need a phone for everyday use, remote workers or while traveling, the IPitomy Communicator is an exceptional tool for your business.
